RE: Wilcox Oil Company Superfund Site

To Whom It May Concern:

It is my understanding that OCWEN is the current owner of the property at 34520 West 221st Street, Bristow, OK, 74010 (herein referred to as 'property'; Enclosure 1). Access to the property for the purposes of completing investigation activities and/or other activities as determined necessary to protect human health and the environment and as listed in the attached Blank Access Agreement (Enclosure 2) is being requested.

This property is located within the boundaries of the Wilcox Oil Company Superfund Site (Enclosure 3). As you can see, the property is located within the area identified as the East Tank Farm. From the 1956 aerial photograph (Enclosure 4), you can see that this property once had a large tank that held crude oil and a rectangular waste pit. Because of its location within the East Tank Farm and within the boundaries of the investigation area for the Wilcox Oil Company Superfund Site (Site), we are requesting from you access to the property. Activities that may be conducted as part of an investigation include, but are not limited to, the taking of soil, waste, water, waste materials, and air samples; the taking of response actions to mitigate threats; and documentation of such actions. Refer to Enclosure 2 for further information.

We request that the blank Access Agreement be filled out and signed by the appropriate official and mailed to address listed below no later than January 6, 2017.

Consent for Entry and Access to Property

Name: _____

Address: _____

Phone: (____) _____

Address of Property for which consent to access is granted:

Relationship to property: _____
(i.e., owner, 5-year tenant, etc.)

I consent to officers, employees, and authorized representatives of the United States Environmental Protection Agency (EPA) entering and having continued access to my property for the following purposes:

1. Taking such soil, water, air, and/or other samples upon the property as may be determined to be necessary;
2. Performing physical tests to determine the characteristics of the soil and aquifer(s) beneath the property;
3. Sampling of any solids or liquids stored or disposed of on the property, or any containers, tanks, materials or other items suspected to contain hazardous substances located upon the property, including the removal of such materials if necessary to perform laboratory testing;
4. Taking a response action to mitigate any threat to human health and/or the environment at the property, including site stabilization and mitigation activities, and the removal, cleanup, elimination and/or remediation of hazardous substances or any materials containing hazardous substances.
5. Photographing and videotaping the property for documentation of current conditions;
6. Other actions necessary to determine the nature, extent and potential threat to human health and the environment from contamination at the property or the removal of such threat at or originating from the property.

Enclosure 2

I realize that these actions by EPA are undertaken pursuant to its response and enforcement responsibilities under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA), 42 U.S.C. § 9601 et seq.

To the extent that EPA installs any item, I acknowledge that it makes no representations about the quality, aesthetics, safety, use, or character of the item or its installation; and makes no warranties as to the item or its installation.

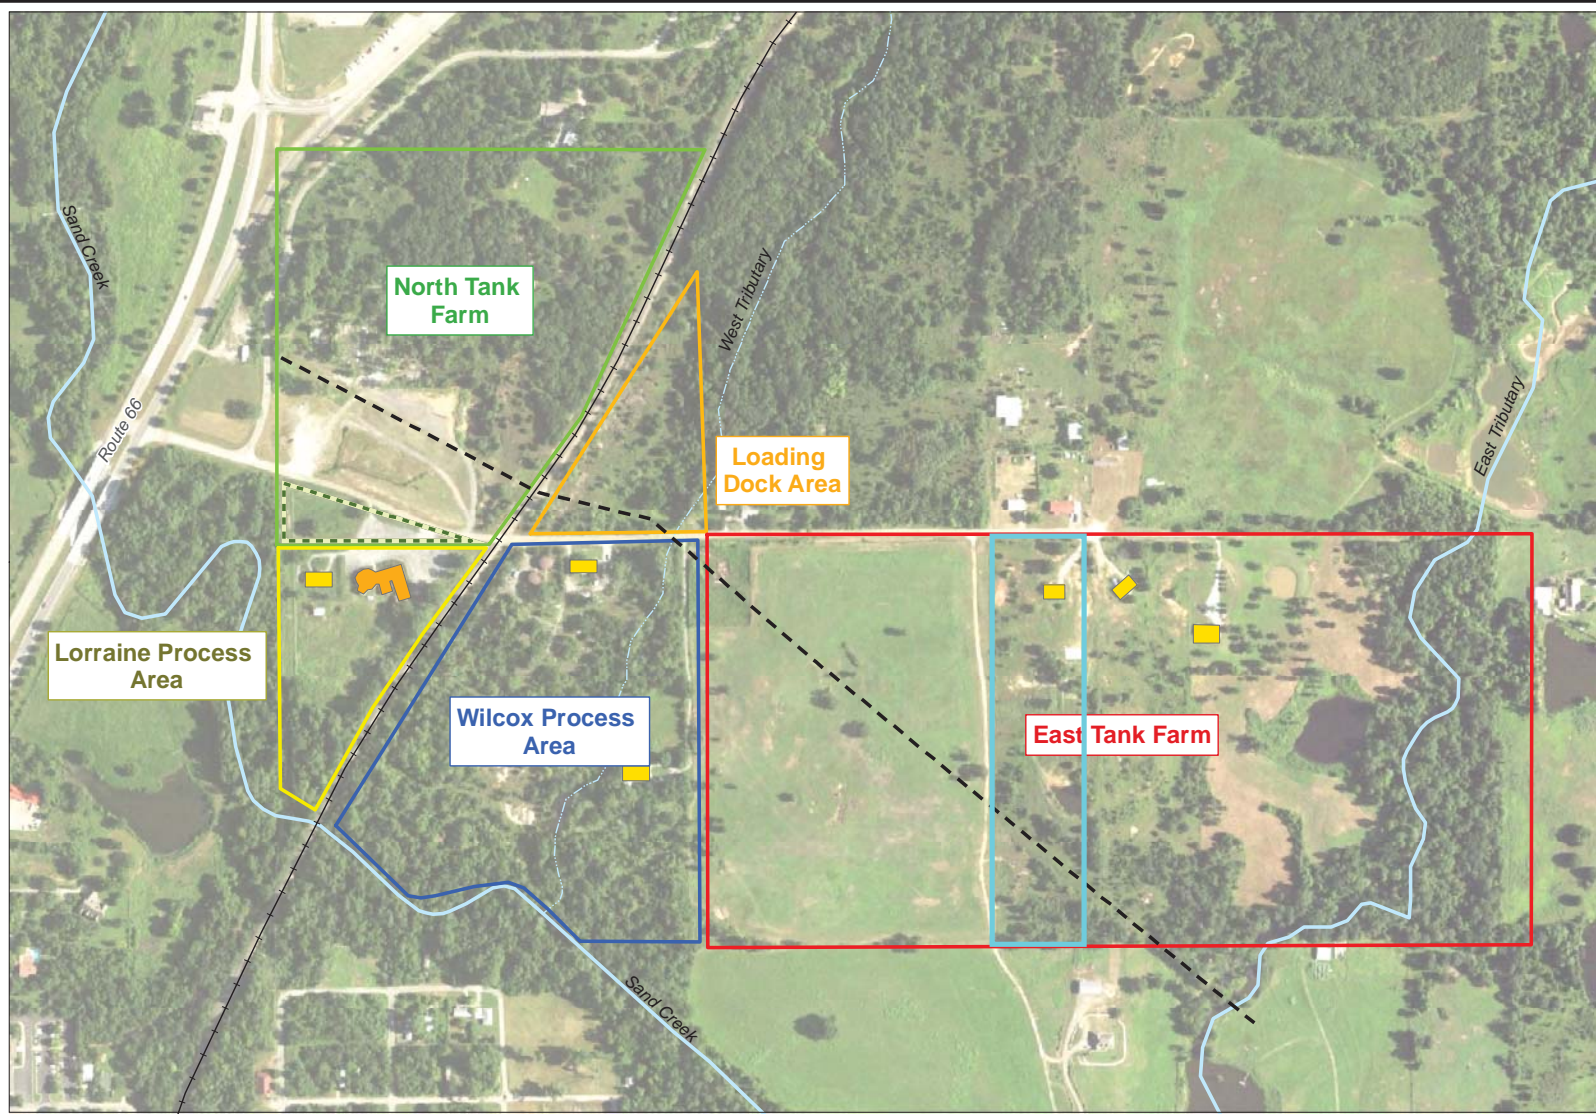

This written permission is given by me voluntarily with knowledge of my right to refuse and without threats or promises of any kind.

I certify that this Consent for Entry and Access is entered into voluntarily and constitutes an unconditional consent and grant of permission for access to the property by officers, employees and authorized representatives of EPA at reasonable times.

All statements on this document are true and correct to the best of my knowledge.
